PROPOSED LAND/BUILDING USE REQUIRING A VARIANCE:

No variance may be granted which would have the effect of allowing in any district a use not permitted in that district. No variance may be granted which would have the effect of allowing a use of land or property which would violate state laws or administrative rules. Subject to the above limitations, variances may be granted where strict enforcement of the terms of the ordinance results in an unnecessary hardship and where a variance in the standards will allow the spirit of the ordinance to be observed, substantial justice to be accomplished and the public interest not violated. Based upon the findings of fact, the Board of Adjustment must conclude that: 1) Unnecessary hardship is present in that a literal enforcement of the terms of the ordinance would unreasonably prevent the owner from using the property for a permitted purpose or would render conformity with such restrictions unnecessarily burdensome; 2) The hardship is due to unique physical limitations of the property rather than circumstances of the applicant; 3) The variance will not be contrary to the public interest as expressed by the purpose and intent of the zoning ordinance.
